

NDIS Teacher Resources 2019 Version

Links teachers to available resources and information about post school options to assist their students' transition from school.

This be used in conjunction with the relevant Education Department's current policy, guidelines and practice. It is not the intention to provide additional work, but rather assist teachers in identifying useful relevant resources for students who are considering the post school options, including accessing the NDIS. School Leaver Employment Supports (SLES) is an NDIS funded post school support which aims to build capacity for school leavers with a disability, but this is only one option. Below is a list of links that you can access for more information as well as share with your students and their families.

These booklets will help participants identify what supports they may need, who is responsible for providing them, and how to access them.

SUPPORT FOR: SCHOOL LEAVERS WITH A DISABILITY

IF YOU ARE A SCHOOL LEAVER...

If you are a school leaver living with disability, you may be starting to think about what you will do after school. You might have heard about School Leaver Employment Supports (SLES), an NDIS transition support available to those who cannot access Disability Employment Services (DES).

IT IS IMPORTANT TO UNDERSTAND ALL YOUR OPTIONS...

It is important to understand all your options and the supports that may be available to you to help you transition from school to work. Talk to your Local Area Coordinator to find out more information about what employment supports you might be able to access after school.

IF YOU HAVE A PART TIME JOB...

If you have a part time job, you might be able to access DES to help you find and keep a job.

IF YOU CAN'T ACCESS DES...

If you can't access DES, NDIS may be able to support you to reach your employment goals.

IN SOME STATES...

In some states there was a Functional Capacity Assessment done by teachers in schools. In 2018 there will be no assessment. Your NDIS planner will make a 'reasonable and necessary' decision based on you available information.

SO IT'S REALLY IMPORTANT...

So it is really important that you bring all of your school documentation to help your planner understand your work capacity and start your journey to employment!
