

#### FROM THE PRINCIPAL

#### **Parent Information Night:**

We trust you managed to have a productive and informative Parent Information Night with your class teaching staff. By all accounts, despite the very loud thunderstorm overhead at Wahroonga at the time, the various meetings and information were well received by you all. Despite the class meetings being on-line it has enabled the close connection and partnership between class staff and home to begin strongly.

#### **Covid Restrictions and Cases:**

St Lucy's is doing incredibly well in this space of Covid infection. Since the start of term, we have only 10 cases among the student body including our three satellite settings (some of these have already tested negative after their isolation and are back at school). Generally, symptoms among the students have been relatively mild. To only have these 10 cases is truly amazing considering the immune compromised situations of many of our students. I know parents will be anxious about any cases in the school after being as a school Covid free amongst the student body for the last two years. Nonetheless I believe we are all, school and parents, playing our part to ensure the minimisation of the spread of the virus. Thank you for your on-going support and vigilance regarding symptoms, testing and isolation.

There is of course 'chatter' in the wider community about the relaxation of current restrictions such as QR sign in, mask wearing and RAT surveillance testing. Regardless of these being publicised and likely to come into effect in the coming week, St Lucy's wishes to maintain the rage. Namely, maintain our current school-based restrictions and protocols for the moment until there is greater clarity about reducing cases in the school and in the wider community – thus protecting our students, staff and families. So, please continue to watch for symptoms, get tested and isolate as needed and wait until Day 6 testing or subsequent testing is negative and symptoms have ceased before returning to school. Don't forget your Monday and Wednesday RAT testing schedule.

We are all doing an incredible job of containing Covid. Keep up the good work.
